FRIDAY, OCTOBER 28, 1904.

#### THE RUSSIAN BLUNDER.

The feeling at home in regard to the North Sea incident, we are told this morning, is at fever heat, and all political parties are united in demanding full reparation for the lives of the fishermen. The decision of the Cabinet Council at this morning's meeting will be awaited with the most extreme anxiety. The telegrams from Gibraltar and Malta show that everything is being made ready for the terrible eventuality of the outbreak of hostilities. The excuse offered for the outrage by Admiral Rodjstvensky, in command of the Baltic Fleet, and by Prince Keretelli, in command of the Imperial Alexander, as given in our telegrams of yesterday and to-day, are utterly unintelligible. The

## TO-DAY'S TELEGRAMS.

## NORTH SEA OUTRAGE.

## FEELING AT FEVER HEAT.

## ALL PARTIES UNITED.

## OMINOUS NAVAL ORDERS.

LONDON, October 27.

The feeling in England is at fever heat. All parties are absolutely united in insisting upon full reparation. Lord Rosebery and Sir H. Campbell-Bannerman have publicly declared that they will support the movement.

The view in official circles here is that it is imperative that a satisfactory settlement should be arranged before the Baltic fleet reaches a certain point on its outward voyage.

(Reuter.)

ST. PETERSBURG, October 27.

Admiral Rodjstvensky's official report has reached here. He says that two torpedo-boats were among the trailers. The Admiral deplores the loss of life.

Negotiations are still proceeding. There is reason to believe that no ultimatum has been presented by Great Britain, who has not gone beyond pressing for a definite reply.

The opinion in Russian official circles is that England's impatience is not justified, in view of the difficulty of the circumstances. It is suggested that the explanations of Admiral Rodjstvensky, which have been transmitted to the British Embassy, should form the subject of a joint enquiry.

(Reuter.)

GIBRALTAR, October 27.

The Channel fleet is ready for sea at a moment's notice.

(Reuter.)

LONDON, October 27.

The Cabinet has been summoned for tomorrow.

(Reuter.)

MALTA, October 27.

H.M.'s battleship Queen and 9 destroyers have sailed from here for an unknown destination. A division of the Mediterranean Fleet, now at Flimmo, has received urgent orders to unite with the division which is at present at Pola, and to proceed westwards.

GIBRALTAR, October 28.

The Channel Fleet, which cleared for action yesterday, sails to-day, ostensibly for a sham attack on the Rock.

(Reuter.)

LONDON, October 28.

The two divisions of the Mediterranean Fleet, which are respectively at Pola and Flimmo, have sailed, it is believed, for Gibraltar.

(Reuter.)

## RUSSIAN ADMIRAL'S REPORT.

## THE TORPEDO ATTACK.

## SYMPATHY FOR VICTIMS.

ST. PETERSBURG, October 27.

Admiral Rodjstvensky has telegraphed, concerning the North Sea incident, that two strange torpedo-boats were amongst the fishing boats. He expresses his regret at the death of the English fishermen.

Spain has authorised the Russian vessels to take on 400 tons of coal each.

(Reuter.)

ST. PETERSBURG, October 28.

(Official). Two telegrams have been received from Admiral Rodjstvensky. The first one declares that two torpedo-boats, with no lights showing, attacked the leading vessel of the fleet. The latter then swept the sea with her searchlights, and opened fire, whereupon the presence of several small steamers, resembling fishing vessels, was discovered. The fleet endeavoured to spare the latter, as soon as the torpedo-boats disappeared.

The Admiral declares that no torpedo-boats accompanied his fleet. One of the strange torpedo-boats was sunk. The other, being only slightly damaged, remained till morning near the small steamers. The fleet did not assist the latter because, in view of their obstinacy in crossing the Russian line, they were suspected of complicity in the attack. Several of the fishing vessels showed no lights, and the remainder only put them out very late.

The second telegram stated that the fleet met fishing boats to the number of several hundreds, and showed them every consideration, except where they were in company with foreign torpedo-boats. The Admiral went on to say: "If there were also on the scene of the occurrence fishermen who were imprudently involved in this enterprise, I beg, on behalf of the fleet, to express my sincere regret for the unfortunate victims of circumstances under which no warship could have acted otherwise, even in time of profound peace."

(Reuter.)

## NORWEGIAN SHIP FIRED ON.

PARIS, October 27.

A Norwegian ship was fired upon by the Russians in the English Channel on the 23rd inst. Firing ceased as soon as the ship hoisted her ensign.

(Reuter.)

## FLEET EN ROUTE FOR TANGIER.

## A NAVAL COUNCIL.

VIGO, October 28.  
The Baltic Fleet is expected to leave here for Tangier to-day. Each vessel has been permitted to take 400 tons of coal. All yesterday afternoon the Russian Consul conferred with Admiral Rodjstvensky on board the flagship. The Admiral subsequently summoned the captains, and had a long consultation with them.

(Reuter.)

## THE RAILWAY COMMISSION.

## OFFICIAL STATEMENT.

As an erroneous idea seems to have arisen in some quarters as to the scope and objects of the recently-appointed Railway Commission, we are authorised by the Ministry of Finance to make the following statement.

It has for some years past become more and more evident that the State Railways were unable to cope with the enormously increased traffic, and that sooner or later it would be imperatively necessary to incur some considerable expenditure in order to put them on a proper footing.

Now that the paramount claims of the Irrigation and other Departments have been in part satisfied, and that the burden of taxation has greatly lightened, it may be hoped that the Government may before long find themselves in financial position which will justify them in dealing with the Railway question and thereby meeting a universally-admitted want. A Commission, therefore, has been appointed charged with the duty of advising the Government as to the manner in which money could most usefully be employed in extending and developing the Railway system. Incidentally, they will propose any further reforms which their experience may suggest with a view of increasing the efficiency of the existing organisation.

How far their recommendations will be put into practice must depend upon the amount of funds at the disposal of the Government.

The Commission consists of Lord Farer, Mr. Oliver Burry, and Major Le Breton, all of whom are railway experts in their different lines of the very first rank. Lord Farer, we may state, is a director of the Midland Railway Company and of the Underground Electric Railways Company of London, and in his younger days he served an apprenticeship in practical railway work on several of the English lines. Mr. Burry has been general manager of the Great Northern Railway since July, 1902, before which date he was general manager of the Buenos Ayres and Rosario Railway. He began his railway career with the London and South-Western Railway, and has had a varied experience both in England and South America. Major Le Breton has been an inspecting auditor under the Indian Government railway administration. He is already in Cairo engaged in completing his examination of the Railway accounts, a task with which he was entrusted by the President of the Railway Administration in the spring. The other two Commissioners are expected in November, and it is hoped that their recommendations will be in the hands of the Government by the beginning of the new year.

THE NEW ENGLISH JUDGES.—It has been stated in the local Press that the three new English judges are to be appointed to the native courts at Zagazig, Assiout, and Beni Souf. No decision on the subject, however, has as yet been arrived at.

H. M.'S GARRISON CHURCH OF ST. GEORGE.—The Right Rev. Bishop Morley, D.D., Archdeacon of Egypt, will preach at the parade service on Sunday next at 11 a.m. The full band and choir of the 2nd Battalion Royal Berkshire Regiment, supplemented by the organ, will take the service. Visitors will be welcome.

SUEZ CANAL.—On the 25th inst. 12 vessels passed through the Suez Canal. Of these, 7 were British, 1 German, 1 Dutch, 1 Russian, and 1 Italian. The transit and passenger dues for the day amounted to £14,048.07 francs. The total transit and passenger dues collected from the 1st to that date on 319 vessels amounted to £8,329,118.81 francs.

COLLISION.—A serious collision occurred this morning at 11 o'clock in Cherif Pasha street between cab No. 1619 and a cyclist messenger in the service of Messrs. R. and O. Lindemann. The cycle was smashed and its rider thrown to the ground and injured in the tempest. The victim was carried into MacGregor's pharmacy, where first aid was given. The cabman was arrested.

EGYPTIAN ARMY.

The Khedive has been most graciously pleased to approve of the promotion of El Bimbashi H. I. E. Fell, Sudan Civil Administration, to Kaimakam.

Lieutenant A. W. Jennings Brandy, 20th Hussars, having reported his arrival in Kharoum from Uganda on the 10th inst., is taken in the strength of the Egyptian Army, from that date, with the rank of Bimbashi. He has been posted to the Cavalry.

The following transfers have been approved:

—El Bimbashi H. M. Hutchinson, D.S.O., 11th Sudanese, to 9th Sudanese.

El Bimbashi B. H. S. Romilly, D.S.O., 9th Sudanese, to Camel Corps.

El Bimbashi D. C. E. if Comyn, Camel Corps, to Sudan Civil Administration.

THE PILGRIMAGE.

300 pilgrims have arrived here from Constantinople and are leaving for Jeddah via Suez.

UPPER NILE EXPEDITION.

Major Powell-Cotton, of the Northumberland Fusiliers, is about to start on another expedition, the object of which is to explore the vast region lying between the Nile and the Zambezi. The journey will occupy about eighteen months, and the explorer will pass through that portion of the Congo territory which is very little known.

THE BERLITZ METHOD.—The principles, never departed from in any of the 226 Berlitz schools, are: 1. Exclusive use of the foreign language; 2. Direct association of the thought with the foreign tongue—direct perception; 3. Teaching the concrete by object lessons; 4. Teaching the abstract by association of ideas; 5. Teaching the grammar through examples. Every teacher teaches only his own language. Alexandria, 26, rue de l'Eglise Copte; Cairo, 1, Sharik Kameil. Private trial lesson free. 24820-1.

BRIDGE ADJUDICATIONS.

A correspondent writes:—I notice in your issue of the 25th instant the result of the adjudication for the bridges on the Ibrahim Canal, but as not one single name is correct, perhaps you would like to correct same:

Group I. Mr. E. H. Gay should be Mr. E. H. Day

" II. " Gandalsy " " Gandalsy

" III. " L. Santrans " " L. Santrans

" IV. " Spurgen " " Sturges

[The errors were due to faulty transmission of the message from Cairo through the telephone.]

RAMADAN.

During Ramadan the hours of work in the schools and kuttab dependent on the Ministry of Public Instruction will be as follows:—

In the schools, 9 a.m. to 2.30 p.m.

In the kuttab, 9 a.m. to 3 p.m.

The time of each lesson is to be proportionately reduced.

A. S. C.

By permission of Lieut.-Col. W. N. McCracken, D.S.O., the band of the R. Berkshire Regiment will play the following selection of music at to-morrow's race meeting:

1. March—Revere—Unrash.

2. Overture—Die Triumphparade—Beissiger.

3. Song—Love, could I only tell her—Capel.

4. Selection—Il Trovatore—Verdi.

5. Gavotte—The First Kiss—Chubert.

6. Picolo—Bar—De Patiens—Vio-ky.

7. Valse—Wien, Wieb and Geang—Strauss.

8. Selection—H. M. S. Pinfors—Sullivan.

9. Cake Walk—Whistling Rufus—Mills.

10. Polka—The Cavalier—Yesterh.

Khedivial Anthem.

God Save the King.

B. Dore, Bandmaster.

THE KHEDIVE.

## CAPTAIN WAKEHAM.

We regret to announce the death, which took place at Liverpool yesterday, of Captain Wakeham, who was for many years agent at Alexandria of the Leyland Line. The deceased was well-known and greatly respected during his residence here. We beg to tender our sympathy to his widow and family.

YOU NEVER KNOW YOUR LUCK.

We publish in another column the advertisement of SAMUEL HECKSCHER SEN., of HAMBURG.

This house has acquired a high reputation for the prompt payment of amounts won by persons here and in all parts of the world.

We would strongly recommend our readers to take particular notice of Mr. Hecksher's announcement and try their luck to win A FORTUNE [ADVT.]

THE RAILWAY COMMISSION.

CAUSE OF THE CABLE TROUBLE.

A correspondent writes:—

Some two and a half years ago the Alexandria and Ramleh Railway Company applied to the Egyptian Government for permission to lay a high-tension cable from Karmous to Chatby. The Government consulted with the Alexandria Municipality and a plan was agreed upon as to how the cable should be laid and its depth, as well as the street alignment which the cable was to follow. The company laid the cable according to these instructions, and the work was duly inspected under Mr. Prince, and also inspected by Mr. Graham and Mr. Prince, and found to be in accordance with the instructions of the Municipality. About the time the work was finished the Municipality decided to relay Menaseh road, and in some places, so doing, reduced the level of the road to within ten centimetres of the cable. At the beginning of this year the company decided to lay a reserve cable as far as the cemetery adjoining the Rosetta Gate, when work was stopped by the Government for permission to lay this extra cable. In April, the company commenced to work from Bulkeley and had completed as far as the cemetery adjoining the Rosetta Gate, when work was stopped by the Municipality because, technically, the formal permission to lay the reserve cable had not been granted. This permission was not given until two months later, and the work had to be suspended during this time. Surely it would be advisable if the Municipality in future obviated such mishaps by advising the company as to what roads they were going to take up? Four or five times the cable has been found to be broken at places where the Municipality have been digging up the roads. If the control of the Ramleh Railway is to be handed over to the Municipality the poor company is sincerely to be pitied, for it will be far better under the Ministry of the Interior, which has a technical and capable electrical engineer to supervise. Only this week it has been discovered that the road at the back of the German Hospital is to be lowered forty centimetres. Therefore the company is forced to relay the cable an extra forty centimetres. Owing to this, a few days ago, when the trenches were open for the purpose of lowering the cable, it was struck by lightning and was burnt to the extent of 150 metres. The Municipality is fully aware of all the work that is being done. Why, then, does it not advise the company as to what it intends to do with the different streets through which the cable passes?

CATTLE PLAGUE.

During the week ending yesterday, 64 deaths have been reported throughout Egypt as due to bovine typhus. They are distributed as follows: Governorate 2, Lower Egypt 57, Upper Egypt 5, showing a diminution of 13 compared with the previous week.

Since the beginning of the epidemic the total of deaths amounted to 146,482, distributed as follows: Governorate 852, Lower Egypt 53,506, Upper Egypt 92,124.

One new locality (Tel Rezan) was reported infected last week. No animals were inoculated.

THE PILGRIMAGE.

300 pilgrims have arrived here from Constantinople and are leaving for Jeddah via Suez.

## LES DROITS DES REPRESENTANTS

MM. Antonin Goubert et J. Assaf viennent d'assigner la Cie d'assurances "La Mutuelle de France et des colonies" devant le tribunal mixte de commerce d'Alexandrie. Voici les motifs contenus dans l'assignation.

"Attendu que les requérants ont été chargés depuis plus de trois ans par la Société assignée du mandat d'agents généraux de cette société en Egypte, avec pouvoirs déterminés et pour une durée illimitée; que ce mandat a été ponctuellement exécuté par eux; que l'un d'eux, le Sieur Joseph J. Assaf a même créé à Alexandrie un bureau spécial pour le service de la société en dépendant à cet effet L.E. 270 pour installation, personnel, petite frais, etc.

"Attendu cependant que malgré le zèle apporté par les requérants au service de la Société assignée, celle-ci n'a cherché pendant les dites trois années, qu'à mettre des entraves à l'exécution des fonctions qu'elle leur avait confiées; que dernièrement, elle s'est même permis de désigner à leur lieu et place pour la même gestion, sans que ce fait ait été notifié aux requérants, les Sieurs E. Almasy, A. Félix et Cie, commissaires à Alexandrie;

"Qu'enfin, sans avis préalable, sans motifs sérieux, sans aucune proposition d'indemnité et sans qu'aucune faute ait pu être relevée contre les requérants, la Société assignée a, par sa lettre du 20 mai 1904, retiré formellement son mandat aux requérants;

"Attendu que ces faits ont causé aux requérants un préjudice dont la Société doit les indemniser; qu'en tenant compte des frais faits et des bénéfices qu'on pouvait raisonnablement attendre de la gestion de l'agence d'une société prospère, le préjudice ne saurait être évalué à moins de L.E. 2270."

Me Orlfi s'est présenté pour les demandeurs et Me Vermond pour la Société défenderesse. L'affaire sera plaidée le 19 décembre prochain.

## BULLETIN DE LA BOURSE

(Aujourd'hui à midi et demi)

Le marché a brillamment débuté ce matin. L'Agricole a même atteint 10 1/2 et la Delta 15 5/16; mais vers la clôture on a fléchi sur toute la ligne par crainte de complications imminentes entre l'Angleterre et la Russie. A Londres les valeurs égyptiennes sont en faveur, l'Agricole à 10 1/2, soit 3/8 de hausse et la Delta à 15 1/2, soit 3/4 de hausse. Les transactions ont été nombreuses spécialement pour l'Agricole.

La Daira est cotée 21 7/16 nominal ici et 21 5/8 à Londres.

Il y a fléchissement sur la Banque Nationale à 22 5/16 l'ancienne Emission et à 22 1/8 la Nouvelle, sans affaires.

La Wardan tombe en clôture à 7 5/16, les Markets à 23/9, la Nungovich à 8 18/16, les Tramways d'Alexandrie à 139 1/2 les Privilégiées et à 362 les Dividendes, l'Agricole à 10 3/16 et la Delta à 15 1/8.

La Salt and Soda se maintient ferme à 26 et les Eaux du Caire haussent à 955 acheteurs.

## SOCIETE GENERALE

## AVIS

Messieurs les Actionnaires sont conviés en Assemblée Générale Ordinaire Lundi le 31 Octobre courant à 4 h p.m. au Siège Social.

ORDRE DU JOUR:  
1 Rapport du Conseil d'Administration.  
2 Rapport des Censeurs.  
3 Approbation des comptes au 31 Août 1904.

4 Fixation du dividende pour l'Exercice 1903-1904.

5 Election de deux Administrateurs.  
6 Nomination des Censeurs pour l'Exercice 1904-1905.

7 Allocation des Censeurs pour l'Exercice 1904-1905.

Pour assister à cette Assemblée Messieurs les Actionnaires auront à déposer leurs actions au moins 48 heures avant la Réunion dans l'un des établissements ci-après:

ANGLO-EGYPTIAN BANK LTD.  
BANK OF EGYPT LTD.  
BANQUE IMPERIALE OTTOMANE.  
CREDIT LYONNAIS.  
NATIONAL BANK OF EGYPT  
ET AU SIGNE SOCIAL

Le nombre d'actions déposées ne devra pas être inférieur à dix.

Alexandrie le 14 Octobre 1904.

## Municipalité d'Alexandrie

## AVIS

La Municipalité met en adjudication la fourniture de M<sup>e</sup> 12,000 de pierre pour la construction de l'école de Chasseuse.

Le cautionnement est fixé à L.E. 480.

Le cahier des charges est déposé au Bureau de la Ville où il peut être consulté par les intéressés les jours de 9 h. à midi, les jours fériés compris.

Les offres devront être adressées sous pli cacheté à Monsieur l'Administrateur de la Municipalité avant le 6 décembre prochain.

Elles pourront également être déposées en séance de la Délegation le même jour à 5 h. p.m.

L'enveloppe devra porter en outre la mention: "Commission pour la fourniture de pierre pour la construction de l'école de Chasseuse."

Le cautionnement ou le reçu d'une banque, d'après les conditions du cahier des charges, devra être remis au Secrétaire Financier avant l'ouverture des offres et au plus tard le 6 décembre prochain à midi.

Alexandrie, le 24 Octobre 1904.

L'Administrateur  
24808-2 (signé) W. P. CHATWELL.

## AVIS

Le Jeudi 10 Novembre 1904 de 10 h. à m. 1 h. p.m. la Municipalité procède à la vente aux enchères publiques près des similières Européennes sis à la Porte Rosette, d'une quantité des pierres extraites des terrains des Fortifications par lots de 40 à 100 mb.

Les acheteurs devront déposer le 10 % au moment de la vente et effectuer le paiement du prix intégral à la Caisse Municipale, le lendemain du jour de l'Adjudication.

Ils auront à supporter les droits de carrières au profit de la Ville et devront enlever les pierres achetées dans un délai de cinq jours, sous peine de faire souffrir pour compte de l'Administrateur.

L'Administrateur,  
(signé) W. P. CHATWELL.

## EGYPTIAN MINING ACTIVITY.

In view of the existing activity in Egyptian Mining, the Directors of the London and Paris Exchange have retained the services of a competent Mining Engineer, whose reports on the present position of the various properties is of the utmost importance. This information is at the disposal of Clients. Correspondents contemplating investment in Egyptian Mining enterprises would be well advised in communicating with the Exchange before doing so, and thus avoid the loss of capital incurred by the purchase of worthless securities.

The London & Paris Exchange undertake the purchase or sale of all classes of Mining Securities on the London Stock Exchange and Continental Bourses.

Drafts issued on PARIS, BERLIN, AMSTERDAM, ANTWERP, NEW YORK & MONTREAL.

### SUDAN IRRIGATION.

By Sir Hanbury Brown, K.C.M.G., late Inspector-General of Irrigation in Lower Egypt, and formerly in Upper Egypt.

(Continued.)

In winter the Blue Nile discharge shrinks from 400 to 200 cubic metres a second, or, in other words, to from 35 to 17 million cubic metres a day, sufficient for a million acres, if we use the minimum discharge as determining the area, or for a million and a-half acres, if we use the mean discharge.

In summer the Blue Nile discharge at Khartoum may be anything between 200 cubic metres a second and nothing. In 1903 it fell to nothing. So that, without storage of water, summer crops cannot be grown by irrigation from the Blue Nile. And so we come to the question of water storage and to the consideration of the advantages offered by Lake Tsana as a reservoir.

Mr. Dupuis gives the area of Lake Tsana itself as 3000 square kilometres, and of its catchment, exclusive of the lake area, as 14,000 square kilometres. The rainfall he assumes to be one metre per annum, falling almost wholly in the four months June, July, August, and September. The proportion of the rainfall that reaches the lake he takes as 25 per cent. The outflow from the lake is calculated to be 8,000,000 cubic metres a day as a mean for the year.

Calculating in the same way as in the case of the White Nile lakes, we have the following:

Rainfall—	square metres.	cubic metres.
Catchment area, excluding area of lake area.	14,000,000,000 x 1 x $\frac{25}{100}$	= 3,500,000,000
Lake area.	8,000,000,000 x 1	= 2,000,000,000
Total from rainfall.		5,500,000,000
Outflow.	8,000,000 x 25	= 200,000,000
Reservoir, quantity evaporated.		5,500,000,000

Mr. Dupuis applies a check to these figures by making the calculation with independent data, and obtains the following figures, which are practically the same:

Quantity entering lake.	cubic metres.
Quantity discharged.	5,572,000,000
Quantity evaporated.	2,034,000,000
Quantity lost.	3,641,000,000

This shows that evaporation disposes of 55 per cent. of the rainfall reaching the lake, and that the depth evaporated is 1.21 m. a year. The lake area is to the total catchment area as 3 to 17. The range of levels in the lake is given as 1 to 2 m., and the average is said to be 1.2 m.

From the foregoing calculations Mr. Dupuis concludes that the effective reservoir capacity of the lake is 3000 million cubic metres, and adds that it may fall to 2000 millions in a year of scanty rainfall, and rise to 5000 millions in a year of abundant rain. Sir W. Garstin accepts the figure of 3000 millions as probably obtainable. If now, this total available volume is concentrated in the outflow of 100 days—a regulator, to be built at the outfall, being kept closed for the remainder of the year—the discharge obtainable would be 30 million cubic metres a day, sufficient—allowing for loss of the way—for about two million acres of land under perennial irrigation. But perennially-irrigated lands should, for the sake of rotation of crops, have a supply of water available at all seasons. Now, we have seen before that the natural winter discharge of the Blue Nile is, at its lowest, sufficient for one million acres only. If, then, we make allowance for keeping up the Blue Nile discharge in winter to 300 cubic metres a second, so as to provide sufficient for a gross area of 1,500,000 acres, the quantity available for storage for use during the 100 days of summer will be reduced to 2000 million cubic metres, and the gross area of land under perennial irrigation to 1,500,000 acres; and this is, apparently, the maximum that the Sudan can expect from the Blue Nile and Lake Tsana.

There may be other reservoir sites still to be discovered on the Blue Nile itself or on its affluents; but if favourable sites are found, there is still to be solved the problem of filling them, and at the same time of avoiding silt deposit in the reservoir. In the present state of want of knowledge concerning these rivers, there is little to be gained by doing more than mention the possibility. The study of this question is included in Sir W. Garstin's list as items 2 and 5.

As regards the work necessary to convert Lake Tsana into a reservoir to store 3000 million cubic metres, Mr. Dupuis recommends a regulator being built at a site on the outflow channel about 10 kiloms. distant from the lake. The regulator would have forty openings of 3m. each, with its floor sunk 4m. below the high-water level in the lake; it would be capable of passing 30 million cubic metres a day—347 cubic metres a second—and would have to hold up 2m. head of water. The rock bed above and below the regulator would have to be cut down for some distance to form the channels of approach and discharge.

Even where there is no question

of irrigation the Public Works Department is by no means to be trusted as a conservator of ancient remains. I remember a striking case in point. Some time back,—about two years ago, I believe,—you published a letter from Mr. Somers Clarke on the subject of the destruction of an interesting shrine at Assouan by the Public Works Department. This letter of that distinguished architect and archaeologist was a scathing indictment of the careless iconoclasm of the Public Works Department, and there was no attempt on the part of the officials to contradict those serious allegations. If there had been any loophole in Mr. Somers Clarke's charges I am sure the Public Works Department would have been only too delighted to have availed themselves of it. But they could not find one, and this serious example of the vandalism of that Department is a disquieting symptom to all those to whom the archaeological treasures of Egypt are a source of study and delight. For how can we be sure that that Department will be more careful in protecting the temples of Nubia? Phileas is doomed and that most beautiful spot in Egypt has been sacrificed to the material exigencies of the fellah. But the raising of the Assoan Dam will extend the lake further into the second cataract reach, and it is therefore incumbent on the Government to state what steps are to be taken to safeguard the temples in Nubia. Aesthetic culture is not a necessary concomitant of the curriculum of Cooper's Hill, and the *alumni* of that defunct institution, who now guide the destinies of the Irrigation Department, should not alone be consulted on this question. Doubtless Sir William Willcocks will claim, "Let the dead bury the dead," while Sir William Preese adorns the columns of the *Times* with such expressions as "sentimental rot." These gentlemen, however eminent they may be in their special lines, are not, I submit, qualified in the slightest degree to discuss the value of the imperilled and unique vestiges of Egypt's past. The remarks of Sir William Preese in his letter to the *Times* are characterised by an ineptitude which makes anyone, who has the smallest pretensions to scholarship, shudder at their puerility. For example, he remarks, "Visitors ascending the Nile become surfeited with Ptolemaic and Roman parades of pure Egyptian culture, and irritated with the political morality which throw over the beauties of Greek arts to foster an effete and decaying civilisation." Anybody who can pass such an unhistorical judgment on the relations of Hellenism to the Egyptian cultus, whether in the Ptolemaic or in the Imperial epoch, stands self-condemned. He may be an excellent engineer but he is quite unfitted to decide as to the claims of Phileas or any other relic of antiquity in Egypt. Sir William Preese, Sir William Garstin, and Sir William Willcocks are great experts in special subjects, but they are no more entitled to decide as to the claims of the temple *vis-à-vis* the Dam than is an expert *chauffeur* or a professional cricketer, and the Egyptian Government will be guilty of a gross abuse of its position as the trustee to the world for the priceless remains of the many civilisations which have borne sway in the Valley of the Nile, if it does not hearken to the Egyptologists and the *sacrants* in their demands for a guarantee of the security of the temples in view of the raising of the Dam.

I am, etc.,  
A DILETTANTE.

Cairo, October 26.

### SPORT AND PLAY.

#### FOOTBALL.

BOULOG R. INSTITUTE v. R. A.

This season's first match was played at the Railway Institute ground, Boulaq, on Friday last, before a goodly number of admirers of the sport. The visiting team was the 4th Mountain Battery of the Royal Artillery. The Boulaq captain, winning the toss, elected to play with the sun at his back. The Mountain Battery kicked off and it was soon evident that the lighter team, meant to wear down the heavier men of the Artillery, Lloyd Jones seeing an opportunity, centred to Eas, who passed to Cory, the ball rebounding from one of the Artillery backs, and Eas shot home, thus scoring the first goal of the season. Play was resumed, but the Mountaineers held the fort at bay until the whistle blew. Score half-time: Boulaq 1, Artillery 0. On r squaring the game it at once became fast, the ball travelling the length of the field several times. Eas made the goal-post rattle with a quick shot which caused the ball to rebound into the field of play. Hayes made use of the opening and dashed into g at the ball, thus scoring the second for Boulaq. The Artillery then changed their mode of attack by long shots for goal. But Arplesby was ever on the alert and saved his charge repeatedly. The play from start to finish was fast and both sides played a game that will be remembered by the spectators as one in which they saw the game p'ayed in a gentlemanly spirit. The Artillery goal-keeper saved many hot shots. The Boulaq forwards promises to give a good account of themselves this season, the combination and quick passing being especially noticed. The football-loving public will be pleased to know that every Friday they will have the chance of seeing a match at Boulaq, and the members of the Railway Institute will be pleased to see them at these matches.

The Boulaq team was:—Goal, R. Arplesby; right back, Abdellahmed Mahmoud; left back, J. A. Bell; half-backs, Lloyd Jones, N. McColl, and J. Donald; forwards, W. Simmens, J. Cory, C. Eas, W. W. Hayes and W. Smith, referee, Mr. W. Caines.

B. INNISKILLINGS v. ABBASSIEH.

A correspondent favours us with the following account of last Saturday's football match at Abassieh:

#### FIRST HALF.

The Inniskillings won the spin of the coin and chose to play with the wind, at their backs. Great cheers were given when Gen. Slade, with a well-directed kick, sent the ball well into the Inniskillings' territory, but Nixon returned with a neat punt to midfield. Fallon took up the pass and passed to McCourt, who ran the

## PROCLAMATION.

Import of Cattle into Egypt from the Sudan (via Haifa.)

The following proclamation cancels all previous regulations published on the above subject. The import of cattle (bulls, cows, calves, and buffaloes) into Egypt from the Sudan (via Haifa) can now be effected under the following conditions:

1.—Each consignment should be accompanied by a Sudan Government Veterinary Officer's certificate stating that:

(a) They were in a good state of health and free from disease on leaving the Quarantine Park at Haifa.

(b) They have been segregated, prior to the issue of this health certificate:

Cattle for slaughtering, for 48 hours.  
Cattle for draught purposes, for 6 days under Quarantine.

(c) There had been no case of infectious disease amongst them.

2.—All Cattle before leaving Haifa must be branded with the letter "B" on the near hip.

3.—The number and destination of animals should, on the arrival at Haifa, be notified to the Egyptian Government Sanitary Authorities, Cairo, by the owners, indicating whether they are for slaughtering or draught purposes.

4.—Cattle for slaughtering: besides Ghizet Market, they can henceforth be sent by rail direct to the following towns, viz.: -

Beni-Suef, Fayoum, Minieh, Assiout, Sohag, Beneh, Luxor, Asuan, where they should be kept under surveillance in the places indicated by the Local Authorities or in the Abattoirs until they are slaughtered.

5.—Cattle for draught purposes having completed 6 days Quarantine in accordance with article 1. (b) may be despatched to any station in Upper Egypt; permits therewith will be issued to owners in accordance with particulars stated in their demand (vide article 8).

6.—In the event of any outbreak of contagious disease amongst the animals, subsequent to their leaving Haifa, the regulations adopted by the Quarantine Board and approved by the Egyptian Government must be strictly observed.

## A FORTUNE WAITING FOR YOU.

In the most fortunate event you can win 600,000 marks is guaranteed by Government. Payment of all prizes say 30,000 £ sterling.

AN INVITATION TO TAKE PART IN THE Great Hamburg Money Lottery in which payment of all the prizes is guaranteed by the Government of State of Hamburg.

M. 8,325/20 or about £46,266 sterl. is the total sum of all prizes.

The entire number of tickets issued is 85,000 of which 41,926, consequently nearly one half of all tickets issued must draw a prize.

The highest prize will eventually be 600,000 Marks or about £30,000 sterl. in the most fortunate case.

Especially there are the following principal prizes:

1 Premium of 300,000 Marks
1 Premium " 200,000
1 Premium " 60,000
1 Premium " 50,000
1 Premium " 45,000
1 Premium " 40,000
1 Premium " 35,000
1 Premium " 30,000
1 Premium " 100,000
1 Premium " 60,000
1 Premium " 50,000
1 Premium " 40,000
1 Premium " 30,000
7 Prizes " 20,000
1 Prizes " 18,000
11 Prizes " 10,000
26 Prizes " 5,000
83 Prizes " 3,000
108 Prizes " 2,000
416 Prizes " 1,000
552 Prizes " 300
148 Prizes " 200

One German mark is equal to one English shilling.

In all the Lottery contains 41,225 prizes and 8 premium-prizes.

The latter are additional prizes awarded in each drawing to the respective ticket drawn last with a principal prize in accordance with the regulations of the official prospectus.

These 41,225 prizes must be surely won in 7 drawings within the space of a few months.

The highest possible prize of 1st drawing amounts to Mk. 50,000, increases in 2nd drawing to Mk. 55,000, in 3rd to Mk. 60,000, in 4th to Mk. 65,000, in 5th to Mk. 70,000, in 6th to Mk. 80,000, and finally in 7th drawing to Marks 800,000.

A whole ticket for 1st drawings costs Frs. 7.50

Half a " " " 3.75

Quarter " " " 1.90

I send the official prospectus showing the start date for the lottery, the following drawings and the detailed list of prizes, to everybody gratis and post-free on application.

The official result-sheet is sent to every ticket-holder immediately after the drawing.

The payment and forwarding of the amounts won has my personal and prompt attention. Every transaction is treated confidentially, absolute privacy being guaranteed.

7 Tickets are sent only against cash, which therefore should accompany all orders.

Remittances may be made by Cheque, Banker's Draft, or Post-Office Orders.

The postage on ordinary letters is 2s. 6d. Seeing that the drawing is now fast approaching, I shall be obliged if you will send me your order at once, however, not later than November 3rd.

Samuel Heckscher senr., BANKER, Hamburg, Germany.

## NOTICE.

The Editor of the Egyptian Gazette will be pleased to receive communications dealing with matters of local interest, for publication. Notes of events occurring in the provinces are especially welcome. All communications should be sent to The Editors, and be accompanied by the Writer's Name and Address, not necessarily for insertion, but as a guarantee of good faith.

The Editor will not undertake to return any contribution unaccompanied by a stamped and directed envelope.
